Brief description of the issue(s) you are having with the blender and/or jar::

I received this at a Christmas party used 2x and now doesn't work... Light does come on but no spin and no sound. I can't find any sort of date so I just put one in. Also the serial does not have a dash it does say blendjet 2 if that makes a difference. Thank you

Jar Size (in ounces): 450

Blender Serial Number (Please include dash): 52422012273
